

Philip Gisore

Software Engineer

✉ philipgisore7@email.com ☎ +254 706488860 📍 Nairobi, Kenya 🔗 LinkedIn 🐙 GitHub

Professional Summary

BBIT student interested in software development and web technologies. Skilled in JavaScript, React, Python, and MySQL through coursework and personal projects. Looking for a software engineering internship to gain practical experience and contribute to real-world applications.

Experience

Projects & Practical Experience	Present
- Designed and built web applications to strengthen front-end and back-end development skills. - Created responsive user interfaces using HTML, CSS, JavaScript, and React. - Developed database functionality using MySQL and integrated it with Python applications. - Debugged and tested applications to improve performance and usability.	Personal Projects

Education

BBIT (Bachelor of Business Information Technology), <i>Multimedia University of Kenya (MMU)</i> Relevant Courses: Database Systems, Software Development, Web Programming, Networking	2026
--	------

Certificate
Database Specialization

Technical Skills

Programming Languages JavaScript, Python, HTML5, CSS3, SQL	Web Development HTML5, CSS3, React.js
Databases MySQL, Django	Tools & Platforms Git, Firebase, VS Code
Other Skills Agile Development, Problem-Solving, Debugging	

Languages

English Fluent	Swahili Fluent
--------------------------	--------------------------

Interests

- Coding
- Web Development
- Problem-Solving
- AI

Projects

AI Resume Analyzer, *React, JavaScript, AI APIs*

- Developed a web application that analyzes resumes and provides feedback to improve structure, keywords, and overall quality.
- Integrated AI functionality to evaluate resumes against common job requirements.
- Designed a clean and responsive user interface to allow users to upload and analyze resumes easily.

Inventory Management System, *Python, MySQL*

Developed a system to track stock levels, add new products, and generate reports. Designed database schemas and wrote SQL queries for efficient data handling.

JavaScript Calculator, *React.js*

Created a functional calculator with history panel, dark mode, and scientific functions. Focused on clean UI design and responsive interactivity.
